Significant Events of 2021 – Restricted Group

Ferry Operations

As per 1 January 2021 Brexit was implemented in the UK, which has not had a significant impact on the Stena Group operation.

In February 2021 Stena Embla entered into traffic on the route Belfast–Birkenhead.

In July 2021 the prolonged vessel *Stena Scandica* entered into traffic on the Nynäshamn–Ventspils route and *Stena Baltica* entered into traffic on the same route in January 2022. These vessels replaced the charted in vessel Scottish Viking, which was delivered back to the owners and Stena Flavia, which is now on the Travemünde–Liepaja route together with the chartered in vessel Stena Livia.

In September 2021, Stena Line bought the British online ferry ticket and customs clearance company Freightlink. The acquisition enables Stena Line to support the wider market with customs clearance services in light of Brexit. It also allows Stena Line to step into the online ticket market and broaden its product offering.

Offshore Drilling

On 5 March 2021, a London Arbitration Tribunal determined certain issues in dispute between Stena Atlantic Limited ("Stena") and Samsung Heavy Industries Co, Ltd ("SHI") over the construction of a harsh environment semi-submersible drilling unit, formerly known as "Stena MidMAX". The Tribunal determined that Stena's termination of the Contract was valid and in doing so dismissed all claims by SHI against Stena. The Tribunal also ordered payment by SHI to Stena of the minimum sum of USD411 million, which has been received, by way of refundment of Stena's predelivery payments plus further amounts in respect of interest and project costs. Stena also recovered further significant sums in respect of its financing costs and legal costs during 2021. Stena Drilling has entered a purchase option agreement with Samsung Heavy Industries for one of their undelivered drill ships. The option to buy the unit will be exercised if a suitable contract is secured.

During 2021 Stena Drilling secured the following new contracts for its fleet of drilling units;

In April, the term of the contracts with Esso Exploration and Production Guyana Limited for *Stena Carron* and *Stena DrillMAX* for work in Guyana was extended.

In April, a contract was signed for Stena Don with Hurricane Energy PLC for 15 days.

In May, a contract was signed for Stena IceMAX with FAR Gambia Limited for a one well campaign.

In June, a contract was signed for Stena IceMAX with Energean Israel Limited for three firm wells plus two options.

In September, a contract was signed for Stena Don with Chariot Limited for a one well campaign.

In October, the term of the contracts with Esso Exploration and Production Guyana Limited for *Stena Carron* and *Stena DrillMAX* for work in Guyana was extended to 31 December 2022.

In November, a contract was signed for *Stena Forth* with ExxonMobil Canada Ltd for a one well campaign in Canada commencing in Q2 2022.

In December, a contract was signed for *Stena Don* with Petrofac Facilities Management Limited for a one well campaign commencing in Q3 2022.

In December, a further contract was signed for *Stena Spey* with Total Energies E&P UK Limited for abandonment operations on four wells commencing in Q1 2022.

Shipping – Stena Bulk

In March 2021, Stena Concert was sold to its new undisclosed owners.

In August 2021, time charter agreements for five years were entered into with Concordia Maritime regarding all ten P-MAX vessels in their fleet.

In October 2021, Stena Conqueror was sold to an undisclosed owner.

In October 2021, *Stena Weco Impulse* was sold and chartered back to Stena Bulk on a five year bareboat contract with an option for four additional years.

Shipping - Stena RoRo

In March 2021 the vessel Stena Nova was sold and delivered to its new undisclosed owners.

In May 2021, the RoPax *vessel Côte d'Opale* was delivered by the CMI Jinling Weihai shipyard. *Côte d'Opale* was simultaneously delivered to the Danish shipping and logistic company DFDS on a long term bareboat charter.

In July 2021, Stena ordered three additional three E-Flexer RoPax vessels from the CMI Jinling Weihai shipyard. In total 12 E-Flexer RoPax vessels have now been ordered. One of the new orders will be chartered out to Marine Atlantic for five years and is expected to be delivered during 2024. The other two orders are expected to be delivered during 2024 and 2025 and will be chartered out for ten years to the French ferry operator Brittany Ferries.

In November 2021, the vessel *Mont Ventoux* was sold to CMA CGM, who previously chartered the vessel for 16 years.

The RoPax vessel *Salamanca* was delivered in November 2021 by the CMI Jinling Weihai shipyard. *Salamanca* was simultaneously delivered to the French ferry operator Brittany Ferries.

In December 2021, the vessel *Stena Saga* was delivered to Bridgemans International, Hong Kong, to serve as accommodation vessel in the Philippines.

The RoPax vessel Sassnitz was divested during the year.

Other

In August 2021, S&L Access Systems AB, owned by Stena AB, which developed the Salamander Quick Lift Crane Technology featuring a new top crane technology enabling heavy lifts on hub heights beyond 200 meters, partnered up with Vestas. Vestas now owns 20% in S&L Access Systems AB.

Subsequent Events

In January 2022, the Rotterdam Europoort freight service relocated from Killingholme to the Port of Immingham. Also, Stena Line signed a new agreement with Associated British Ports (ABP) to jointly develop a new freight terminal at the Port of Immingham. The agreement to operate the facility is for 50 years.

In February 2022 a new route was opened on the Baltic Sea from Nynäshamn in Sweden to Hangö in Finland. It is operated by the vessel *Urd* in the starting phase and planned to be joined by the vessel *Stena Gothica* as of May 2022.

The current conflict between Russia and Ukraine has, in the short perspective, had no major effect on the Stena Group operations. The long term effects will most likely be limited, as long as the conflict is geographical contained. Should this change, the effect on the business can be extensive.

Currency Effects

Our revenues and expenses, reported in Swedish kronor, are significantly affected by fluctuations in currency exchange rates, primarily relative to the U.S. dollar, the British pound and the Euro. We seek to mitigate the impact of potential adverse foreign currency exchange fluctuations by matching, to a possible extent, revenues and expenses in the same currency. In addition, we enter into certain derivative financial instruments.
